MY WORK

Your Name: Follow the rain

My valley before the town	7% ran off
My valley with the town	12% ran off
Pollution mysteries solved	2
Fewest vials I needed	4
Step 1. How much of the Big storm soaked in, and how much ran off?	(what the learner wrote)
Step 1. Where did the drop from outside the yellow line go, and why?	(what the learner wrote)
Step 2. Where did the pond fill, and why there?	(what the learner wrote)
Step 2. Where does the pond's water go when it is full?	(what the learner wrote)
Step 3. How much ran off before the town, and how much after?	(what the learner wrote)
Step 3. Why does more water run off a town than a forest?	(what the learner wrote)
Step 4. How much ran off on clay, compared with loam?	(what the learner wrote)
Step 4. Why does water go into sand faster than into clay?	(what the learner wrote)
Step 5. What was wrong at the beach, and which place was to blame?	(what the learner wrote)
Step 5. Which two vials proved it, and what did each read?	(what the learner wrote)
Step 6. What did you test for this time, and what was the line?	(what the learner wrote)
Step 6. How many vials did you use, and what would you do differently next time?	(what the learner wrote)
